

"TO WHOM IT MAY CONCERN at the FCC: Grow up and stop behaving like spoilt children.

The FCC is an inane association made up of lunitics from the right. We pay for our satelitte radio service, not you. If you would like to listen to the junk that passes for information/entertainment elsewhere, please do - no one will try and stop you from doing it.

It is patently obvious that this is about revenue and greed on the part of the NAB and it's members. Nothing more and nothing less.

I choose to pay for quality in all the goods and services that I buy/use. I will not be told what to do by a group I have given no authority to speak for me.

Yours sincerely,  
Margo Aleksic
